Congress Circular

What is the importance of certification course in day to day Clinical practice which is going to be conducted by WCCICC-2019, 22nd-24th Feb 2019, Miniball room of hotel J W Marriott, Sahar, Mumbai

1. Atleast one can get 4 credit points from Maharashtra Medical Council (MMC). In addition another extra 6 credit points can be obtained by attending various sessions being spreaded over a period of 3 days during 2nd World Congress.

Note: Please note that these credit points are very important for renewing registration number online after uploading all the credit points acquired by you for example I have done myself very recently.

2. Echocardiographers would not know what is happening in Nuclear Cardiology field & vice versa as frankly speaking many of our nuclear medicine specialists do not know the basics, interpretation & various useful informations available in 2D Echocardiography. The reason being that they do not get an opportunity to learn what is happening in other cardiac imaging facilities & vice versa. Similarly Echocardiographer (Clinical Cardiologist) does not know many useful informations which are available in Nuclear Cardiology. It is disheartening to know that the cardiologist very often mention till today that the dye is injected in Nuclear Cardiology. Similarly CT MRI Cardiac radiologist do not know what is happening in 2D Echocardiography, Nuclear Cardiology & vice versa. On the whole it is nothing

but orientation to other cardiac imaging modalities, exchange of ideas & various interpretations.

3). Apart from learning various Cardiac Imaging modalities, interesting worth knowing **Clinical Cardiology day to day topics** like diabetes, hypertension, obesity, dyslipidemia, "LDL how low is too low is required" are going to be discussed which are important learning points for all of us & we always come across these common problems in our day to day practice.

4. This certification course does not allow the participant to interpret various imaging modalities scan if they do not belong to that speciality.

5. This course is an **interdisciplinary orientation training programme** continuously for 3 days in the Mini ball room of J W Marriott.

6. **Course materials**

a) Certification course bag (different from delegate bag)

b) Relevant diary for taking down the points with pen

c) Few relevant publications of cardiac Imaging & Clinical Cardiology speciality

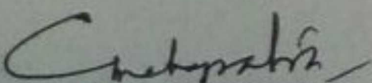

d) Textbook of Cardiac Imaging update, 2017 & 2019

7. **Course fee: Rs 5000** till July 2018 which includes complimentary stay, complimentary breakfast & coach facility to the venue specially for outstation enrollments will be extended by our organising committee of WCCICC-2019. This fee amount would also enable the participant to attend & be permitted to take part in various important sessions of WCCICC-2019.

8. Final day, day 3- all participants will be given a certificate dully signed by our eminent Course Directors that they have sucessfully completed the course.

9. Seats are limited, age limit is relaxed to 45 years(as stated in aadhar & pan card,xerox copy is required,maximum upto 150 on first come first serve basis.

10. Mode of payment : A/C payee cheque in favour of WCCICC 2019 or online payment by gateway visiting the website:www.wccicc.com & selecting the option for certification course or directly by bank transfer Account No. **50415425681**,IFSC CODE : **ALLA0212473**,MICR Code : **400010033**,Bank : **Allahabad Bank**,Branch : **Marol, Andheri East, Mumbai 400059**.Every registered participant will be intimated a registration number for future followup
